Question: Most effective learning aspects of course

I enjoyed the different media presentations and readings they really tied together the learning.

The layout of modules was very clear.

The videos were helpful, and I enjoyed the ideas to ethics essays

The concepts and topics to learn from in this course.

Incredibly useful lecture videos and materials. Was very informative to have extra videos/movies/readings on top of lectures. Assignments were also very thought provoking and generally fun ways to reflect on the material.

The most effective aspects of this course were the weekly Ideas to Ethics essays. They allowed me to share my stories and my opinions openly regarding different topics in the course.

The lecture/powerpoints

The lecture videos

clear, passionate

The lectures were the most helpful part of the course! Dr. Koch has a great way of teaching, even though video, that keeps the material interesting and makes you think about the material in a different perspective. This helped in truly understanding the material without just rote memorization. Also, the dad joke and magic tricks were peak material.

The weekly lecture videos and ideas to ethics essay.

All of the different forms of info every week were very engaging and really helped me to learn the content in a fun way.

N/A

The professor was very passionate about what this course is, and that showed in his teaching. It kept me interested and engaged.

The most effective aspects of the course were the lectures because he explained our prompts very clearly.

I think since this was an online class, having the homework in a random place in the lecture videos helps encourage students to actually watch the lectures.

The way Dr. Koch organizes assignments and opens them each week was super helpful and made it easy to get things done.

I liked the videos and the class set up.

Although this course was online i found it effective in the manner in which the professor made a fullproof way for us the students to watch his lecture and pay attention to it.

The most effective aspects were the weekly writings and additional enrichment that allowed you to apply concepts to your life, but you could also see these concepts in action as a viewer. It helped make the concepts stick and allowed for people to think retrospectively.

Communication was excellent, I think the "ideas to ethics" were great as well.

the lectures

Ideas to Ethics is a unique approach to the course content.

The material was organized and accessible which made it easier to traverse the course.

I think the most effective part of this course was the videos and powerpoints we were provided with each week.

Organization

The clear Teachings and perspectives of different sociology perspectives to making a student want to learn more

Question: Least effective learning aspects of course

The actual book chapters were kind of hard to follow at times and usually left me confused but I think that's just user error

NA

There is a lot of stuff to do within the modules and it can be very overwhelming when taking other classes.

The work we did outside of class, we could have done more, but it was still good enough for me to learn.

N/A

n/a

n/a

Nothing was least effective.

n/a

I think that the longer book we had to read could be cut down, lots of unnecessary info.

N/A

There were none.

N/A

Nothing!

none

n/a

N/A

no

This is a minor and possibly irrelevant issue... I know this was an online class, but not knowing any of the other students in this class made me feel like I was alone. The emails sent out from this class were only directed at me (usually in other classes, they are mass emails to all the students in the class). This is personal gripe, but having association (or just knowledge) with the other students in the course I think would have made me feel less alone in the class.

N/A

I think the least effective part of this course was that it is online, rather than in-person.

N/A

Question: Additional comments about instructor

He was a great instructor, very well spoken and I liked that he truly wanted to hear from us and our thoughts on the topics we learned.

Amazing Professor, fun and very nice!

I have taken multiple of professor Koch's courses and I greatly enjoy his lectures. He is thorough and clearly encourages thought and learning rather than passing tests.

The instructor clearly cared about the course content and found many ways to deliver a good education on the topics. Not only did we have multiple materials to aid in our understanding of the content, but the instructor also pulled in a lot of guest speakers, which I personally liked a lot.

I took his class in my first semester at Texas Tech, and I really enjoyed taking his class again. Although it was online this time, he did a very good job engaging with the students. I like his dad jokes and magic tricks too.

I loved having Dr. Koch! He facilitates a very welcoming class where we are all able to express our outlooks on things in a non judgemental environment. Always with good feedback.

Great Professor!

I wish I had taken a class with him before my last semester so I could have taken more. He does an outstanding job.

Great professor who cares deeply about his students!

Extremely engaging and fun to listen to!

N/A, such a great professor and I enjoyed being in one of his classes again!

Dr. Koch was a phenomenal professor. A professor that you wish you had in face to face classes. I know he would make me not want to miss class. Just great, the best online professor I have ever had.

I love Dr. Koch! This is my second class with him and a specifically took it online because I knew he was going to be the teacher. He is so passionate about teaching and the topics that it makes it more fun to learn about. Also, he is so organized and that is super helpful. I love when he brings in special guests or talks about people he knows, I just think it's so fun!

I liked how the professor did a good job at intergrating the subject with real life events and made us think about how society is impacted by substance use. Good professor and he cares alot about his subject.

I really enjoyed this instructor. I think he was fair and that the class as a whole was very interesting. Thanks for the great semester.

I really enjoyed the modules in this course. I appreciate how Dr. Koch remained impartial about the contexts of the lecture, not leaning one way or the other. He kept the modules interesting and definitely made it easy to keep along.

Great instructor!!

N/A.

Had Dr. Jerome Koch my first semester for intro to sociology and now for alcohol, drugs and society, and his teachings have further advanced my knowledge in this setting of sociology I would definitely recommend to others to take this class or any of his classes as he is a very educated and knowledgeable professor
